Subject: EPA Acceptance of the HHRA Workplan

Dear Mr. Brown,

The US Environmental Protection Agency (EPA) has completed its review of:

- ARC Response to EPA and LRWQCB Comments on the Final Baseline Human Health Risk Assessment Work Plan dated February 19, 2016; and
- Revised Tables 4.1 and 4.2 , dated June 27, 2016

This work was submitted to EPA pursuant to Administrative Order for Remedial Investigation and Feasibility Study, Leviathan Mine, Alpine County, California (CERCLA Docket No. 2008-18, June 23, 2008). EPA provides remaining comments along with a line by line time sequence response in Attachment 1

EPA accepts the Human Health Risk Assessment workplan conditional on incorporation of comments as outlined here.

In the next 60 days, or by February 28, 2017 please provide a response to any remaining comments and provide the final revised Human Health Risk Assessment workplan. Please also fully consider and incorporate EPA comments on other documents, especially: Reference Area Workplan; RIFS TOC Format, Reporting and Schedule; and Draft Sections of the RIFS ("Technical data Summary Reports"). EPA provided those comments under separate cover. EPA directs ARC to ensure the risk assessments are sufficiently scheduled to ensure delivery of a first inclusive draft RI/FS by December 31, 2017 and a complete and final RI/FS by August 30, 2018.

If you have any questions, please feel free to contact me at (415) 947-4183 or Deschambault.lynda@epa.gov.

Best Regards,

Lynda Deschambault
